MANUFACTURED IN GREAT BRITAIN

KENDAL LAID

Correspondence with a self-assured style and understated commitment to sustainability, Kendal Laid matches the illustrious past of British papermaking with the requirements of contemporary business.

This range of corporate stationery, is a truly versatile, eco-friendly range of papers for stationery in a classic Laid design.

A watermark is an image or pattern created by compressing the fibres in the paper sheet, the patterned portion of the paper is thinner and so is discernible when held up to the light as more light is transmitted through the compressed area. If the pattern is a series of distinct parallel lines, the paper is termed a Laid paper.

FibreBlend
UPCYCLED TECHNOLOGY

APPLICATIONS

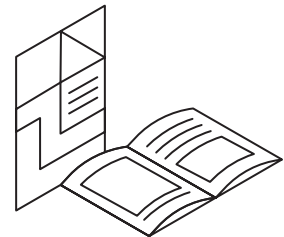

This classic range of watermarked papers and boards are ideal for the production of co-ordinated stationery.
